## KEEPS YOU IN BUSINESS 24 HOURS A DAY! Your Own Telephone Answering Service

**Answers Phone Calls When You're Not In!  
Ingenious — Remarkable — Answers On First Ring!**

Myron's "answering machine" device is a 24 transistor-diode automatic telephone answering and message recording machine — at a price never possible till now! All it requires is that you dictate a message with which the phone will be answered whenever it rings. Dictating time is about 20 seconds, more than enough to announce that your voice is really a tape recording, and that the caller may leave a message of up to about 1-minute duration. A tone sounds at the end of your message, signaling that the machine is now ready to listen and record.

## Myron's TELEPHONE VALET

**Answers Your Phone**  
— anywhere, anytime. Whenever your phone rings, Myron's Telephone Valet answers in your voice, takes the message — gives the caller any message you wish. It's always on the job — never sleeps, never takes a coffee break, never misses a call.

**OTHER USES, TOO** — Your Telephone Valet never rests. When you don't need it to answer your phone, it serves as a handsome executive tape recorder — taking your dictation on handy cassette tapes. Or it can be used to play music in your home; background music in your place of business. **No installation required.** Merely rest telephone handset on Special cradle — press button — and Myron's Telephone Valet is in operation.
